Grow Group Goals for 2019

Here are some healthy goals to set for yourself and your Grow Group in 2019.

- 5 First Time Guests in Your Grow Group in 2019.** Encourage a culture of inviting within your group by personally inviting others. Encourage members to engage their neighbors and co-workers. Be prepared for when God places someone new in your circle.
- 4 Personal Contacts Every Week.** Develop a culture of shepherding within your group by contacting others throughout the week. It could be a meal, coffee, or just an encouraging note. The world will know we are His disciples by our love for one another.
- 3 People You Pour Your Life Into.** Follow the example of Jesus who invested heavily in three individuals. These individuals are not projects but your friends with whom you do life together.
- 2 Guests That Stick.** Make sure you create a fun and safe environment where people can grow in their faith. People aren't looking for a friendly church. They are looking for friends.
- 1 Leader to Deploy.** Don't stifle numerical growth by not being prepared to branch. Replace yourself. Invest heavily in at least one person, give them more and more responsibility, with the goal that they too will become a disciple-making leader.
